## Adhesion

**Across, we pride ourselves on driving rigor, “operational excellence” & enhanced customer value. That’s why we’re placing some big bets on nearly 40 high impact projects that »will help increase« our speed to market, improve the quality of our products and services, significantly reduce costs, and drive competitive advantage for our customer and our company\*. It’s called Adhesion, and it is changing the way we do business.** 14 pt.

## What is Adhesion?

**Adhesion is aimed at driving operational excellence across. With Adhesion, “customer” value and “competitive edge” will be significantly improved by leveraging “proven process improvement toolkit.”**

### New »Product« Introduction

**Our NPI process improvements are aimed at creating market specific products, reducing® product development cycle time, improving the quality of our designs, and reducing development costs.**

### World-Class Engineering

**We’re leveraging rigorous design and validation processes and engineering productivity tools to increase NPI capacity and reduce development cost.**

### Mission One

**We’re redesigning product lines and factories using dedicated cross-functional teams focused on customer features, high performance/energy efficiency, lower cost, and world class quality.**

### Integrated Solutions

**We’re developing integrated solutions and improving NPI execution**

**cution from idea generation through product launch.**

**We’re giving customers a Power Island solution with a combination of flexibility and efficiency unmatched in the industry. We’re also leveraging this platform for future products.**

### LED Cycle ½ Time

**We’re increasing LED speed to market by cutting overall product development cycle time by more than 50%.**

## Commercial Excellence

**We are letting our customers prioritize our efforts »when« it comes to improving our commercial processes. We’re using world class tools and driving visibility of data across the enterprise to speed up the process and help our customers compete and win.**

### Differential Value Proposition

**We’re using the DVP process to better understand «how we make money» for our customers today, and identify specific Transportation® initiatives that will make our customers**

**We’re streamlining and improving the process of delivering service, which reduces the time our products spend in the shop. We’re also using Remote Monitoring & Diagnostics® and data analytics to improve our customers’ uptime and availability. 9% Aviation: Predictable Performance**

**We’re increasing the predictability of Aviation Services results by improving data visibility, shop cost and time-on-wing predictability\*.**

### 1¼ Oil & Gas: Execution (%)

**We’re optimizing the outa management process from planning to closure, which improves service speed and quality of execution.**

### Energy: Power Services

**We’re improving the speed and quality of our response to »customer’s parts« and service needs.**

### Unplanned Repair

**We’re reducing the frequency and duration of unscheduled shop visits, which drives both customer and** fonts@google.com.
